

CBS CORPORATION REPORTS FIRST QUARTER 2019 RESULTS

Revenues of \$4.2 Billion, Up 11%

Diluted EPS of \$4.21; Adjusted Diluted EPS of \$1.37, Up 2%

NEW YORK, May 2, 2019 - CBS Corporation (NYSE: CBS.A and CBS) today reported results for the first quarter of 2019, including the Company's best-ever quarterly revenue and first quarter records in adjusted operating income and adjusted diluted earnings per share ("EPS").

"CBS has once again grown across all of our key financial metrics, while continuing to invest in our future as a global multiplatform premium content company," said Joe Ianniello, President and Acting Chief Executive Officer, CBS Corporation. "We delivered higher profits and achieved double-digit revenue growth, helped in part by *Super Bowl LIII* and strong increases in affiliate and subscription fee revenues. At a time when others are losing subscribers, our total number of subs across traditional MVPDs, virtual MVPDs and our direct-to-consumer services once again grew strongly during the quarter. In fact, our direct-to-consumer subs grew 71% from last year, and we are seeing strong growth here in the second quarter thanks to premium original series such as *The Twilight Zone* on *CBS All Access* and *Billions* on Showtime. At the same time, we also continue to produce more and more content for a variety of buyers, including Amazon, Apple and Netflix, which will debut the critically acclaimed *Dead to Me* from CBS Television Studios tomorrow. Plus, in two weeks we'll be unveiling a whole new lineup of hit shows on the #1 broadcast network -- and most-powerful platform in the business -- the CBS Television Network. Given our Company's strong programming pipeline and our early-mover advantage in direct-to-consumer, we feel very confident about CBS' leadership position in a media landscape that values must-have content above all else."

First Quarter 2019 Results

Revenues for the first quarter of 2019 increased 11% to \$4.17 billion from \$3.76 billion for the same prior-year period. Advertising revenues grew 18%, driven by the broadcast of *Super Bowl LIII* on the CBS Television Network. Affiliate and subscription fee revenues rose 13%, led by growth in the Company's direct-to-consumer streaming services, fees from CBS Television Network affiliated stations and retransmission revenues, including from virtual MVPDs. Content licensing and distribution revenues decreased 3% as a result of the benefit to 2018 from the renewal of a domestic licensing sale of *Dexter*.

Operating income for the first quarter of 2019 increased to \$1.23 billion from \$772 million for the same prior-year period. The comparison was affected by discrete items in the first quarter of 2019, including a gain of \$549 million on the sale of CBS Television City and charges relating to a restructuring plan initiated during the quarter. Adjusted operating income increased 2% to \$793 million from \$781 million for the same prior-year period. The increase was primarily driven by the revenue growth, which was offset by a higher investment in premium content, including an increase in the number of owned series, and higher costs associated with the growth and expansion of the Company's direct-to-consumer streaming services.

Net earnings for the first quarter of 2019 were \$1.58 billion compared with \$511 million for the first quarter of 2018. Comparability was affected by a discrete tax benefit of \$768 million, or \$2.04 per diluted share, resulting from a reorganization of the Company's international operations. Adjusted net earnings decreased 1% to \$515 million from \$518 million for the first quarter of 2018.

Diluted EPS for the first quarter of 2019 was \$4.21 compared with \$1.32 for the same quarter in 2018. Adjusted diluted EPS increased 2% to \$1.37 from \$1.34.

Details of the discrete items excluded from financial results and reconciliations of adjusted results to their most directly comparable GAAP financial measures are included at the end of this earnings release.

Free Cash Flow, Balance Sheet and Liquidity

For the first quarter of 2019, operating cash flow was \$438 million compared with \$717 million for the first quarter of 2018. Free cash flow was \$411 million for the first quarter of 2019 compared with \$687 million for the same prior-year period. The decreases were mainly driven by an increased investment in content.

In March 2019, the Company issued \$500 million of 4.20% senior notes due 2029. The Company used the net proceeds from this issuance in the redemption of its \$600 million outstanding 2.30% senior notes due August 2019.

Entertainment (CBS Television Network, CBS Television Studios, CBS Global Distribution Group, Network 10, CBS Interactive, CBS Sports Network and CBS Films)

Entertainment revenues of \$3.18 billion for the first quarter of 2019 increased 15% from \$2.75 billion for the first quarter of 2018. Advertising revenues increased 19% from the same prior-year period, driven by the CBS Television Network's broadcast of *Super Bowl LIII*. Underlying CBS Network advertising revenues increased 1% from the same prior-year period. Affiliate and subscription fees grew 26%, driven by subscriber growth at *CBS All Access* and increases in station affiliation fees and revenues from virtual MVPDs. Content licensing and distribution revenues were up 3%, mainly from higher sales of series produced for third-party services.

Entertainment operating income of \$530 million for the first quarter of 2019 increased 9% from \$486 million for the same prior-year period. This increase was driven by the revenue growth, which was partially offset by an increased investment in premium content and higher costs associated with the growth and expansion of the Company's direct-to-consumer streaming services.

Cable Networks (Showtime Networks, Pop and Smithsonian Networks)

Cable Networks revenues of \$552 million for the first quarter of 2019 decreased 3% from \$571 million for the same prior-year period. The decrease primarily reflects the benefit to 2018 from the renewal of a significant domestic licensing sale of *Dexter*, which was partially offset by growth from the *Showtime* digital streaming subscription offering and revenues from a pay-per-view boxing event.

Cable Networks operating income of \$175 million for the first quarter of 2019 decreased 26% from \$236 million for the same prior-year period. The decrease reflects the lower revenues, an increased investment in programming, costs associated with the pay-per-view event and higher advertising and marketing costs for series premieres and to drive subscriber growth for the *Showtime* digital streaming subscription offering.

Publishing (Simon & Schuster)

Publishing revenues of \$164 million for the first quarter of 2019 increased 3% from \$160 million for the same prior-year period, driven by higher print book sales. Bestselling titles for the first quarter of 2019 included *Five Feet Apart* by Rachael Lippincott and *Supermarket* by Bobby Hall.

Publishing operating income of \$17 million for the first quarter of 2019 increased 6% from \$16 million for the same prior-year period, mainly as a result of the higher revenues.

Local Media (*CBS Television Stations and CBS Local Digital Media*)

Local Media revenues of \$457 million for the first quarter of 2019 increased 10% from \$415 million for the same prior-year period, reflecting higher advertising revenues as a result of the broadcast of *Super Bowl LIII* on CBS and growth in retransmission fees.

Local Media operating income of \$138 million for the first quarter of 2019 increased 17% from \$118 million for the same prior-year period, as a result of the higher revenues.

Corporate

Corporate expenses of \$67 million for the first quarter of 2019 decreased 11% from \$75 million for the same prior-year period, primarily reflecting lower executive compensation costs.

Adjusted Operating Income and Segment Operating Income

The following table sets forth the Company’s Adjusted Operating Income for the three months ended March 31, 2019 and 2018. The Company defines “Adjusted Operating Income” as operating income excluding costs for restructuring and other corporate matters and gain on sale of assets, each where applicable. For each individual reportable segment Adjusted Operating Income is also known as “Segment Operating Income.” The Company presents Segment Operating Income as the primary measure of profit and loss for its reportable segments in accordance with Financial Accounting Standards Board (“FASB”) guidance for segment reporting.

The Company uses Adjusted Operating Income (or Segment Operating Income for each segment), as well as Adjusted Operating Income Margin, to, among other things, evaluate the Company’s operating performance, to value prospective acquisitions and as one of several components of incentive compensation targets for certain management personnel. These measures are among the primary measures used by management for planning and forecasting of future periods, and they are important indicators of the Company’s operational strength and business performance. The Company believes these measures are relevant and useful for investors because they allow investors to view performance in a manner similar to the method used by the Company’s management; provide a clearer perspective on the underlying performance of the Company; and make it easier for investors, analysts and peers to compare the Company’s operating performance to other companies in its industry and to compare the Company’s year-over-year results.

Because Adjusted Operating Income is a measure of performance not calculated in accordance with accounting principles generally accepted in the United States (“GAAP”), it should not be considered in isolation of, or as a substitute for, operating income or net earnings as an indicator of operating performance. Adjusted Operating Income, as the Company calculates it, may not be comparable to similarly titled measures employed by other companies. In addition, this measure does not necessarily represent funds available for discretionary use and is not necessarily a measure of the Company’s ability to fund its cash needs. As Adjusted Operating Income excludes certain financial information that is included in operating income and net earnings, the most directly comparable GAAP financial measures, users of this financial information should consider the types of events and transactions which are excluded. The Company provides the following reconciliation of Adjusted Operating Income to operating income and net earnings.

CBS CORPORATION AND SUBSIDIARIES**SUPPLEMENTAL DISCLOSURES REGARDING NON-GAAP FINANCIAL INFORMATION (continued)
(Unaudited; in millions)**Free Cash Flow

The Company defines free cash flow as net cash flow provided by operating activities less capital expenditures. The Company's calculation of free cash flow includes capital expenditures because investment in capital expenditures is a use of cash that is directly related to the Company's operations. The Company's net cash flow provided by operating activities is the most directly comparable GAAP financial measure.

Management believes free cash flow provides investors with an important perspective on the cash available to the Company to service debt, make strategic acquisitions and investments, maintain its capital assets, satisfy its tax obligations, and fund ongoing operations and working capital needs. As a result, free cash flow is a significant measure of the Company's ability to generate long-term value. It is useful for investors to know whether this ability is being enhanced or degraded as a result of the Company's operating performance. The Company believes the presentation of free cash flow is relevant and useful for investors because it allows investors to evaluate the cash generated from the Company's underlying operations in a manner similar to the method used by management. Free cash flow is one of several components of incentive compensation targets for certain management personnel. In addition, free cash flow is a primary measure used externally by the Company's investors, analysts and industry peers for purposes of valuation and comparison of the Company's operating performance to other companies in its industry.

As free cash flow is not a measure calculated in accordance with GAAP, free cash flow should not be considered in isolation of, or as a substitute for, either net cash flow provided by operating activities as a measure of liquidity or net earnings as a measure of operating performance. Free cash flow, as the Company calculates it, may not be comparable to similarly titled measures employed by other companies. In addition, free cash flow as a measure of liquidity has certain limitations, does not necessarily represent funds available for discretionary use, and is not necessarily a measure of the Company's ability to fund its cash needs. When comparing free cash flow to net cash flow provided by operating activities, the most directly comparable GAAP financial measure, users of this financial information should consider the types of events and transactions that are not reflected in free cash flow.

The following table presents a reconciliation of the Company's net cash flow provided by operating activities to free cash flow:

	Three Months Ended March 31,	
	2019	2018
Net cash flow provided by operating activities	\$ 438	\$ 717
Capital expenditures	(27)	(30)

2019 and 2018 Adjusted Results

The Company's results included discrete items that affected comparability. Adjusted results exclude these discrete items and are measures of performance not calculated in accordance with GAAP. The Company believes that these measures are relevant and useful for investors because they allow investors to view performance in a manner similar to the method used by the Company's management; provide a clearer perspective on the underlying performance of the Company; and make it easier for investors, analysts, and peers to compare the Company's operating performance to other companies in its industry and to compare the Company's year-over-year results. The following tables reconcile adjusted financial results to their most directly comparable GAAP financial measures.
